# SERVICE & PREVENTATIVE MAINTENANCE PROGRAMS

Service and preventative maintenance programs from SprayComp take the hassle out of maintaining your paint booth and ensure it continues to operate in peak condition for years to come. SprayComp offers a variety of programs — which may include quarterly and annual site visits, filter and part replacement, booth cleaning, a dedicated preventative maintenance manager, and weekend/after-hours service — to meet your business’ needs.

## REDUCE DOWNTIME & PROLONG BOOTH LIFESPAN

SprayComp’s service and preventative maintenance programs help ensure your paint booth is running properly, reducing costly downtime and prolonging its lifespan. Booth inspections can help identify potential issues before they become bigger, costlier ones.

## EMPLOYEE & EQUIPMENT SAFETY

Improper booth care and cleaning can lead to parts wearing down or falling apart, creating a potentially dangerous situation for your employees. SprayComp technicians will inspect all booth components to ensure a safe working environment.

## BETTER-QUALITY FINISHES

A clean paint booth with optimal airflow allows for better quality paint finishes. In addition to inspecting the performance of your booth, SprayComp technicians will deep clean the booth annually. This includes the application of Booth Shield, a peelable protective booth coating from Global Finishing Solutions® (GFS) that helps produce a clean, bright painting environment.

## EXPERIENCED TECHNICIANS

SprayComp’s technicians are experienced at identifying and correcting potential booth issues. In addition to working with GFS booths, our technicians have performed service and maintenance on all other brands of paint booths.

## DEDICATED PREVENTATIVE MAINTENANCE MANAGER

As part of SprayComp’s service and preventative maintenance program, we will provide you with a dedicated preventative maintenance manager. This person will assist you with scheduling site visits, filter or part replacement, or emergency service.

## QUALITY SERVICE & SUPPORT

SprayComp takes great pride in providing personal, one-on-one service to our customers. We value building long-term relationships with customers, always keeping the customer’s best interest top of mind. You can count on SprayComp for rapid response times, personalized service and knowledgeable representatives.
